PROFILE

Recent Bachelor of Computer Applications (BCA) graduate with a strong foundation in frontend development and responsive web design. Completed coursework and projects in HTML5, CSS3, JavaScript, and UI/UX design. Eager to leverage creative problem-solving abilities to build high-performance web applications and achieve seamless user experiences in a dynamic tech environment.

PROJECTS

Portfolio Website

- Designed and developed a responsive personal portfolio using HTML5, CSS3, and JavaScript to showcase web development projects.
- Optimized website performance and SEO, resulting in fast load times and improved visibility.
- Implemented smooth scroll navigation and interactive UI components to enhance user engagement.

Landing Page Clone

- Replicated a high-traffic landing page to practice pixel-perfect UI development and advanced CSS positioning.
- Utilized CSS Media Queries to ensure a seamless experience across all screen sizes.

To-Do List App

- Built a functional task management application using vanilla JavaScript, focusing on DOM manipulation and event handling.
- Integrated Local Storage to ensure user data persists across browser sessions.
- Designed a clean, intuitive UI with CSS Flexbox to ensure responsiveness across mobile and desktop devices.
